SUMMARY

Passionate software developer with a focus on creating efficient and innovative solutions. Seeking a challenging position that will allow me to utilize my skills in programming, problem-solving, and collaboration to contribute to the success of a dynamic team and organization.

EDUCATION

Bachelor of Technology in Computer Science and Engineering	Present
Prasad V. Potluri Siddhartha Institute of Technology	
Intermediate - Narayana Junior College MPC	2019 – 2021
Secondary Education - Narayana High School	2018 – 2019

PROJECTS

Insurance cost prediction – Machine learning

Tech stack – Python

- Created a model to predict medical insurance costs based on age, gender, BMI, number of children, smoking status, and city.
- Employed the Linear Regression algorithm for predicting insurance costs, ensuring a straightforward and interpretable relationship between input features and the target variable.

Portfolio – Front-End Development

Tech stack – React, HTML, CSS, JavaScript

- The project leverages React component-based architecture to efficiently manage dynamic content, facilitating seamless updates and maintenance.
- Integrated smooth animations and transitions to enhance user engagement and create a visually appealing experience within the interactive interface.

SKILLS

Technical Skills

• C • C++ • JavaScript • React • HTML • CSS • Node.js • MongoDB

Soft Skills

• Communication • Leadership • Teamwork • Creativity • Time Management • Problem Solving

CERTIFICATIONS & ACHIEVEMENTS

- **NPTEL:** Problem Solving Through Programming in C.
- Earned **Smart Coder** Certificate from Smart Interviews, demonstrating proficiency in advanced coding techniques and data structures essential for software development roles.
- Achieved 5-star rating in Problem Solving on HackerRank.
- Earned PCAP Programming Essentials in Python Certification from Cisco Network Academy.
